

## **Sustainability Policy**

**December 2017**

As a small charitable organisation sitting in the heart of the beautiful East Neuk of Fife we are committed to providing a luxury self-catering product for people with disabilities, life limiting conditions and their carers whilst supporting our local communities and minimising the environmental impact of our operations.

In particular, we will achieve this through our commitment to:

- comply with all relevant legislation and regulations;
- continue to work with relevant organisations to encourage and promote the provision of accessible accommodation;
- regularly review the environmental impact of our activities, endeavour to reduce our overall environmental impact and prevent waste using best practice techniques;
- involve employees and guests in our environmental programme and provide necessary training / information to enable them to discharge their responsibilities / enjoy a more sustainable break;
- sustain a programme of continual improvement in environmental performance by working with organisations such as Green Tourism to benchmark our progress;
- work with key suppliers to encourage them to develop environmental best practice; and
  - improve resource efficiency (including our use of water, energy and raw materials).
